

Living Future Astrology Feedback Form

Thank you for taking time to give me feedback so that I can continue to improve the quality of readings that I offer.

1. What did you like?
2. What did you learn?
3. What surprised you?
4. Did you feel safe?
5. Did you feel seen?
6. What would you suggest I do differently?
7. Is there anything else you would like for me to know?
8. *I appreciate receiving honest, constructive feedback and testimonials, which can be used to promote my professional work online. As you know, it takes a lot of courage and desire to come for a session. The more words people can hear from different voices, the easier they can find their trust to walk through the door. Please write a few lines here, and indicate if you prefer to be anonymous, or to have your name and/or age, profession and location included. If you would be willing, I would deeply appreciate a brief (2-3 sentences) testimonial about your experience.*
